Summary

Java Backend Developer with a strong foundation in Java, Spring Boot, Spring Security, REST APIs, and PostgreSQL. Built and deployed Spring Boot projects, implementing secure authentication with JWT and OAuth2, and integrating AI-powered features using Spring AI. Interested in developing robust backend solutions and contributing to impactful software projects.

Skills

Languages: Java, SQL, JavaScript
Backend & Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Spring AOP, Spring AI, Hibernate, JDBC, REST APIs, JWT, OAuth2, Microservices
Database: PostgreSQL, MySQL
Tools & Cloud: Git, GitHub, Maven, Docker, Postman, IntelliJ IDEA, Render, Neon, Netlify, AWS
Core Concepts: OOP, REST API Design, DTO Pattern, Exception Handling, DSA, DB Design

Projects

MoneyManager | GitHub | Live Demo **Sep 2026 – Oct 2026**

Tools Used: Java, Spring Boot, Spring Security, JWT, Spring Data JPA, PostgreSQL, Docker

- **Built a personal finance tracker** with 22 REST endpoints covering authentication, income, expenses, categories, and dashboards.
- Secured the app with **JWT and Spring Security**, Google Sign-In (OAuth2), and email account activation.
- Added Excel import/export (Apache POI) and Cloudinary image storage; **deployed with Docker** on Render, Neon, and Netlify.

CineStage – Cinema Ticket Booking | GitHub | Live Demo **Sep 2026**

Tools Used: Java, Spring Boot, Spring Data JPA, PostgreSQL, REST APIs, TMDB API

- **Built a cinema booking REST API** for cities, theatres, screens, seats, shows, users, and bookings (8 entities).
- Modeled entity relationships with **JPA** on PostgreSQL; integrated the **TMDB API** for live movie posters.
- Tracked bookings with status (confirmed/cancelled) and date, and showed only available seats for each show.

SmartCart – AI-Powered E-Commerce | GitHub | Live Demo **Oct 2026 – Nov 2026**

Tools Used: Java, Spring Boot, Spring AI, OpenAI API, Spring Data JPA, PostgreSQL, pgvector

- **Built an AI e-commerce backend** with Spring Boot, Spring Data JPA, and PostgreSQL for products and orders.
- Integrated **Spring AI with the OpenAI API** for an AI chatbot, product description generator, and image generator.
- Added transactional orders, DTO validation, and global exception handling (404/409).

Certifications & Leadership

- **Spring Framework, Spring Boot, Spring AI – Udemy (2026):** Certificate
- **Hackathons:** Participated in 10+ hackathons (online and offline), led teams, and reached the finals 4+ times.
- **CP & DSA Core Member – CtrlZ Community:** Helped organize coding contests for the community.

Education

B.Tech in Computer Science & Engineering **2024 – 2028**
Netaji Subhash Engineering College, West Bengal *CGPA: 8 / 10*
